PLEASE LEAVE PREPARED STATEMENT WITH COMMITTEE SECRETARY

Proof(s) that civilization must perfect with Reform(s); *Clouds are conciousnesses; Pets know calendars. July 2006 MT. 59601 Mike B. Poet BA '70 (1.)

Train derailment (d-rls.) patterns, of universal energy cause + effects, dates from tv news reports are clear + evident of non-coincidental other than human influences, + by observing the time spans between them 'listed' below, even though all the U.S. + world d-rls. since Nov. '05 aren't presumably usually included in tv reports, most + many are, + those that aren't wouldn't significantly diminish the lucid non-random statisical accumulations of multiple + 'obvious' numerically consistent facts considered here - also, ½ or ¼ huge + entire global areas are reasonable enough of an area to sample for significant proofs of non-human intelligences' repeated communications of diminishing controls by them, of universal energies, without significant + multiple reforms, affecting national + international intelligences on both sides of human nature, human + non-human, responsibilities, learning + DNA similarly.

(* Elseways, collapses apocylptically, exponentially.)

Of the 14 reported d-rl. incidents I listed (last line below), copied from TV news reports, from Nov. 22, 2005, earlier the same day a large aquarium opened to the public in Georgia, later that day commuter traffic got stuck on Chicago RR tracks, a train hit cars, at least a few critical injuries occured. Lastly that evening on national tv, at the Bowling Green vs. Toledo college football game, a cotton tailed rabbit appeared in an end zone, + about 10 mins. later, probably at the opposite end zone (of camera² angles), the offence at the 8 yd. line, near scoring, fumbled unusually about 6 yds. forward thru the center of the line, + the defence recovered. Some days before, I'd sent over a dozen letters to government authorities, predicting a series of unspecified multiple disasters in 4 days in the last wk. of Nov. '05, + my prediction realized, there were a many more than usual quantity of disasters +/or near disasters (≈16) in those 4 days + one in between (the 26th). I've observed patterns of phenomena, frequency progressions, studies of the "Facts on File" library News Encyclopedia's index: accidents + earthquakes, in the previous year, of 18 + more yrs., books on shelves... proving apocylptic ultimatums +/or of perfecting harmony with non-violent reforms, i.e. insomnia, confusion, +/or 'violence-contemplation' 100% remedial variable quantities of 10-20% sweet wines, +/or exercise + baths... self control, happiness, morality + prevention of violence.

Four of 15 incidents were trains colliding with cars or trucks (two: two), fatalities in each of 4, 11 were d-rls. (probably all non-fatal) Any few incidents I missed wouldn't significantly effect the statisical + obvious facts + validity of the 'matching' numerical analysis following: Two days after the Chicago by Lake Michigan collision, a d-rl. near-by, so. of Chicago not far from a river, on 11-24... then 11-26, d-rl., Scotland, + 11-26, d-rl., Laurel, MT. (at 3:22 AM again), 2 days later; 7 mo. 8 days later (220 days), 7-2-'06, 1 d-rl. MT. + a slow non-fatal collision of 2 commuter trains, Pa., from 11-24-05, + 11 days later (ts: time span), 12-5-05, d-rl., MT. (Helena). I 'figured' (the 'stats') the time spans beyond a wk. + 4 days between each of the d-rls. + crashs from 11-24-05 to 7-2-06, + approximately exactly, beyond 98% careful numeric analysis by a poet (I can miss a number or few), of 37 time spans measured in days, I found 11 matching 'digit-11' 'factorable' (evenly divisible by 11) tss (time spans) statisically, logically, i.e. 88 days between 3-3-06 + 5-30-06, 122 days between 1-28 + 5-30; the time spans together look like: 11d, from 11-24-05; 220d., 66d., 122d., 155d., 99d., 44d., 88d., 11d., 11d; an 11:37, or ≈80% probability ratio statisically 'figures' from a ≈1:10 probability of one factor 11 matching pair of digits per time span of the 220 day sample, logically + reasonably, proof of non-human intelligences' volitional equinoxes, crop + biologic growth, + abused +/or forced errors, but communications by those entities by numeric redundant consistencies... like a horse pawing the ground twice + whinnying for alertness + change. Similar high % proofs, over 500:1 volitional communications ratios resulted comparing 18 yrs. + beyond other disaster [illegible]

The children's ≈ 20yr. TV show, running ≈ 5 days/wk. for … yrs., "Wishbone", starring a small white dog, discontinued, Wishbone didn't show on Monday, 9-10-01; the last show was the previous Friday. How decades, near 100 yrs. + beyond, of cats + dogs + fish in radio + TV audiences - + also parrots - affected consequentially, significantly, to Wishbone's absence, + as large lizard eggs also are white, concerns the following, of trust + funda-mentalism, + improving universal energy cause + effects.

If your stomach's empty, 1 pill, 1 lungful of smoke, or 1 small glass of alcohol, or an injection (needle) can cause near immediate unconciousness. Reading poetry summers ago, a gnat landed, hopped + flew loops, from both + with its antennaes pointed at - small letters 'a' + 'o' - in between Yellowstone + Glacier National Parks. There are no American Indian wall paintings of tornadoes … caged origins… 21st century increasing frequencies…

Numeric digits + alphabet letters' origins are in temporary conciousness merges w/ intelligences in the universe eons before humans, of fundamental communications, i.e. small letters a + f expressing, describing, sprouts + crop growth, + digit # 2 also, similarly, + of obstetrics; # 5: the curve below the open square is of free space, comes + goes, no locks; # 7: a quadruped's nose, or some of fish's gills, + of speed before vehicles + rollercoasters; # 0: planetary or ovarian; # 1: phallic, or of fish + bird goes, up + down including non-human concerns of Jupiter, etc., conciousnesses here eons before us. There follows some lucid statisical, logical + reasonable patterns of redundant signals from our abused non-human partners in the universe, the 1000's: I universal origins' majority, naturally: '85 - '04, 20 yrs., 485 aviation crashes: C: crash - including a few shot down mistakes - averages exactly 24.25 c's ea. yr. Two U.S. passenger flights, 3 yrs. 9 mo. + 3 or 4 days apart, in '85 + '89, on 4-16 + 1-20, also 137# days, + 3 yrs. 279 d., + 3 yrs. 39 wks. 6 d. of time span-identical expressions, had engines fall off in flight, but landed safely. Between '84 + '02, 18 yrs., 446 c., a near 4:4:4 # Two 15 yr. totals about 365 d. … '85-'99 (373 c.) + '88-'02 (362 c.) 11 fewer crashes in 4 yrs. from '88-'04, 17 yrs.: 401 c. Statisically non-randomly (365 d./yr. draws from a hat-logical numeric sampling) '88-'04, 331 c.: 4 triple-same day crashes (+ a 5th + 6th since somewhere in my notes), the first, all 3 in the same yr., on 3-3-91, then the others in 9 different yrs., on 7-11, 7-27, + 3 × 11-22. 4-'16 has statisically non-randomly somefewer disasters… (recall volitional equinoxes, 16 fundamentally reasonable, 100% factual, reality descriptives, in the previous paragraphs. Also accumulatively non-randomly statisically, 3, nearly 4 groups of 4 crashs in one yr. (4 diff. yrs.) on the same day of the mo., i.e. 4 × 11th in '96, 4 × 31st in '00, 4 × 28th in '02, + 3 × 25th in '03 ('02 + '03 were a 'cusp' of a crash + a boat sinking, both on 5-25). Fabrication + /or creative journalism isn't an unreasonable cause for doubt, but would become obvious of more than a few instances, therefore couldn't effect multiple statisical + reasonable 'matchs', proving goodwill + signals for reform(s). Of ≈ over 90% 5 magnitude e-qks. or more, approx. 110 in 17 yrs., there were 5 pairs of same mo. + day qks., + 5 prs. of same mo. day + yr. qks. In '91 + '92 (12-29 + 10-4), two or more engines fell off 2 flights fatally.
