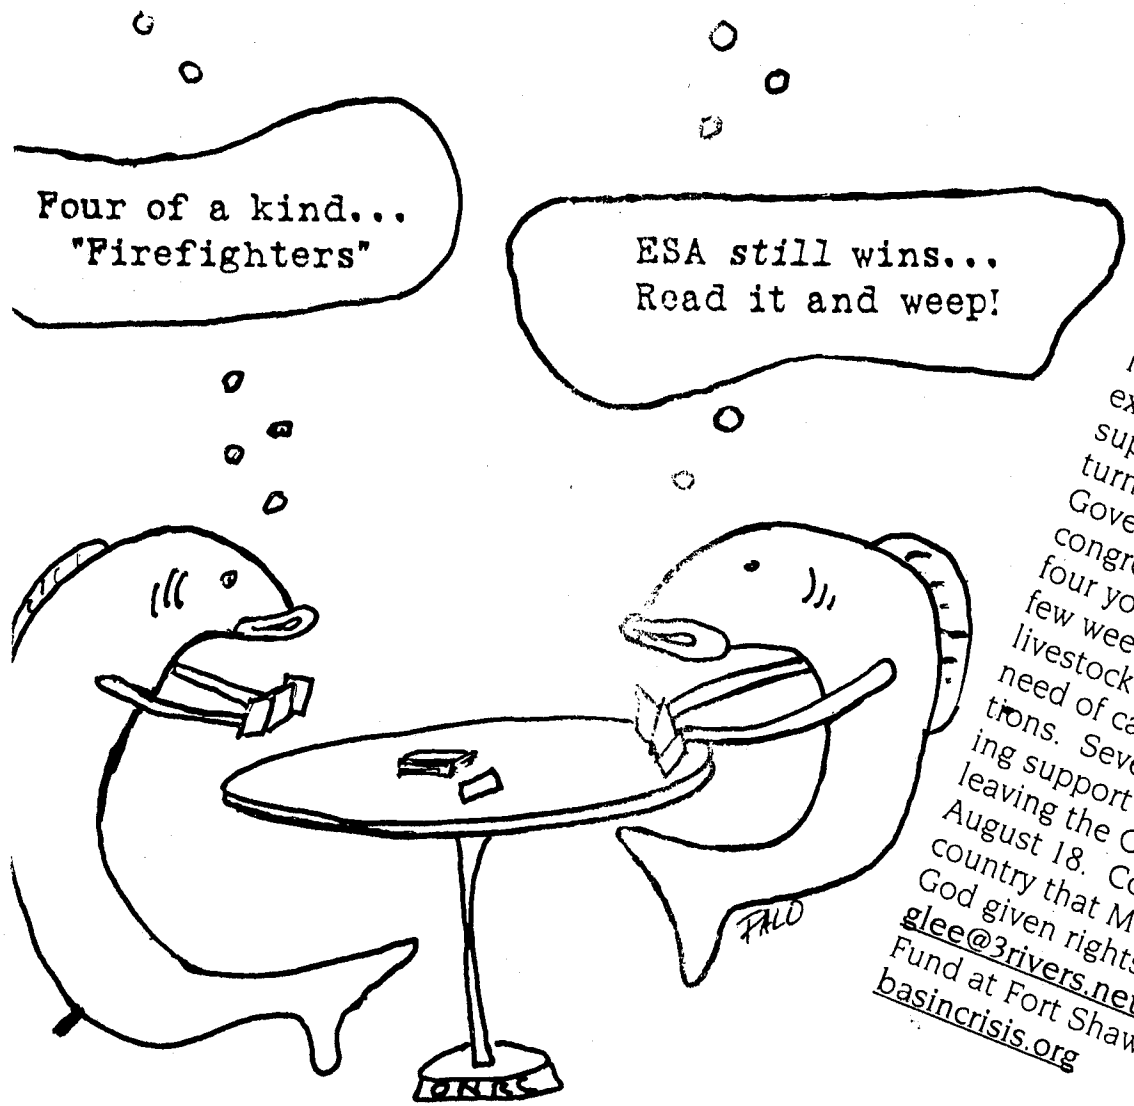
BILL NO. SB 145



In Klamath Falls, Oregon...

1500 families, through no neglect of their own, are experiencing a man made drought. They need your support. What was once 200,000 irrigated acres is turning to desert because of the Federal Governments Endangered Species Act. The same congressional act being blamed for the deaths of four young firefighters in Washington State just a few weeks ago. The families at Klamath and their livestock are facing an unknown future and are in need of canned goods, bagged feed and cash donations. Seven other states and Montana are showing support with the Klamath Falls Relief Convoy leaving the Outlaw Inn Kalispell the morning of August 18. Come and join this cause and show the country that Montanans stand for people and their God given rights. Contact me at 799-7374 or e-mail glee@3rivers.net or send donations to Klamath Ag Fund at Fort Shaw, MT 59443 or visit www.klamath-basincrisis.org
