SENATE JUDICIARY
EXHIBIT NO. 27
DATE 2/19/09
BILL NO. SB406

To: Members of the Senate Judiciary Committee

My name is Caleb Hinkle and I am 16 years old. I urge you to support SB406 proposed Constitutional amendment. My reasons for supporting this bill are that I believe all life is a gift from God, and that includes the unborn, living and growing in the womb of their mothers.

I have a video of myself in my mother's womb and nobody can tell me that I was not alive at that very moment and not able to feel pain, and I certainly would not have liked it if some doctor used forceps to pull my legs and body out but leaving my head only to thrust scissors into my skull and create a hole which then is used to insert a suction catheter to suck out my brains causing my skull to collapse for easier removing from my mother's body.

If that is not outright murder then I don't know what murder is. Even though I am not catholic I agree with the Pope when he told Nancy Pelosi that as a legislator she should defend life from conception on.

Science and technology have come a long way since Roe vs. Wade, that we can see the spark of life, I urge you the leaders of today, to have the wisdom, to let us, the leaders of tomorrow, carry that flame into the future.

Again I urge you to support SB406. Thank you,

Caleb Hinkle
